

“Connecting Worlds”

a 40-hour Healthcare Interpreter Training

This is a 40 hours industry standard training for medical interpreters. It satisfies the CMI and CCHI national certification prerequisite requirement.

This training includes:

- 40 hours of lecture time and homework;
- Non-language specific training group (all languages are welcome!);
- Activities, terminology review, practice;
- Case studies, role play;
- In-depth study of medical interpreter roles, ethics, legal issues;
- A full training binder;
- Certificate of completion;
- An introduction to Video Remote Interpreting;
- Guest speakers;
- An in-depth view of the two national certification exams;
- Tips on national exam preparation and requirements.
