

UC Davis Wildfire & Smoke Health Summit Program

A virtual research conference focused on health effects of wildfires

The videos of the presentations can be viewed on BOX via the click-able links of the presenters listed below. Please note that a VPN connection, UC Davis CAS login, DUO and a video player will be needed.

Session 1:

Moderator: Angela Haczku and Paul Dodd

Kenneth W Kizer (Atlas Research)

The Many Health Effects of Wildfires: The Need for Research- informed Policies and Preparedness

Irva Hertz-Picciotto (UCD SOM)

Wildfires and Health: Assessing the Toll in Northern California

Kent Pinkerton (UCD SOM)

Health Impacts of Wildfires and Airborne Particulates

Tina Palmieri (UCD SOM)

A One Health Perspective on the California Wildfires

Bryn Willson (OBGYN resident, UCD SOM)

Effect of Wildfire Smoke Exposure on Pregnancy Outcomes in the Non- Human Primate

Edgar Olineka (Penryn Fire Protection District)

Wildfire smoke exposure: One firefighters' perspective

Session 2:

Moderators: Anthony Wexler and Tina Palmieri

Angela Haczku (UCD SOM)

Wildfire Smoke and Innate Immune Cell Activation

Rebecca Schmidt (UCD SOM)

Environmental exposures and health in pregnancy

Lisa A Miller (UCD SVM)

Health Outcomes of Early-Life Wildfire Smoke Exposure: Lessons Learned from a Nonhuman Primate Cohort

Nick Kenyon (UCD SOM)

Personalized monitoring approaches during wildfires

Camille Raynes-Greenow (University of Sydney, Australia)

Smoke exposure on pregnant women and children, impacts, mitigation and messaging

In conjunction with the 3rd International Smoke Symposium (ISS3) April 20-24
Sponsored by the UC Davis School of Medicine and the UC Davis Office of Research
